

JAZZ

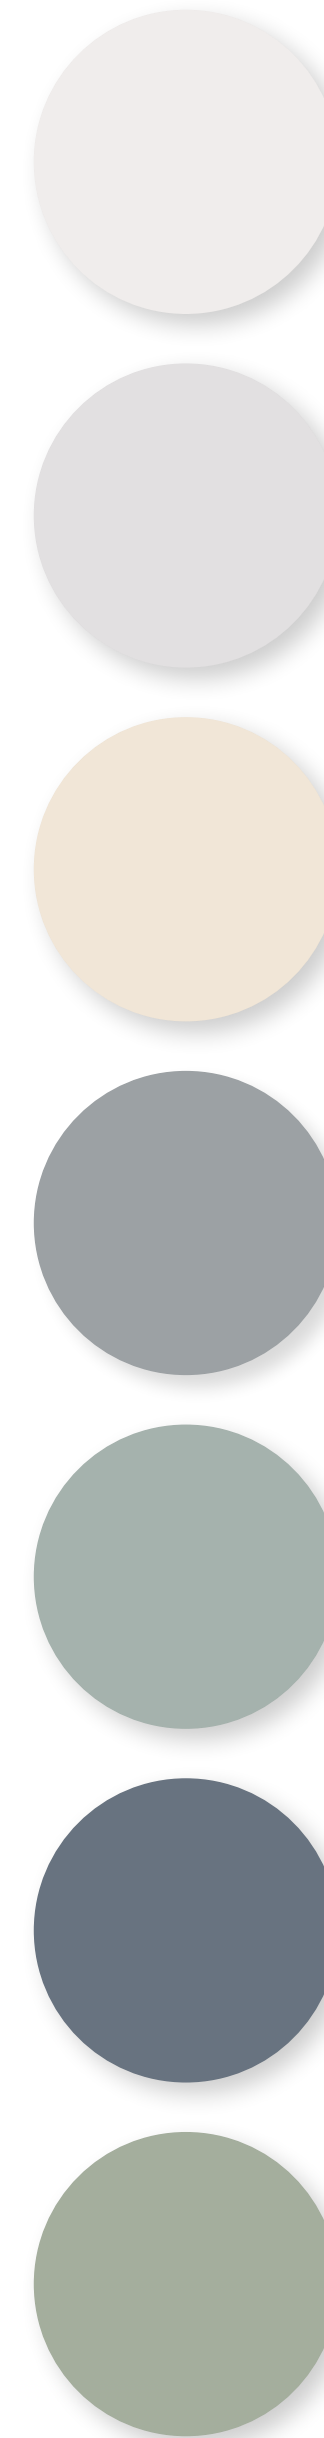

Romantic flowers

Endless decorative possibilities

Fresh nature

Botanical & Floral patterns

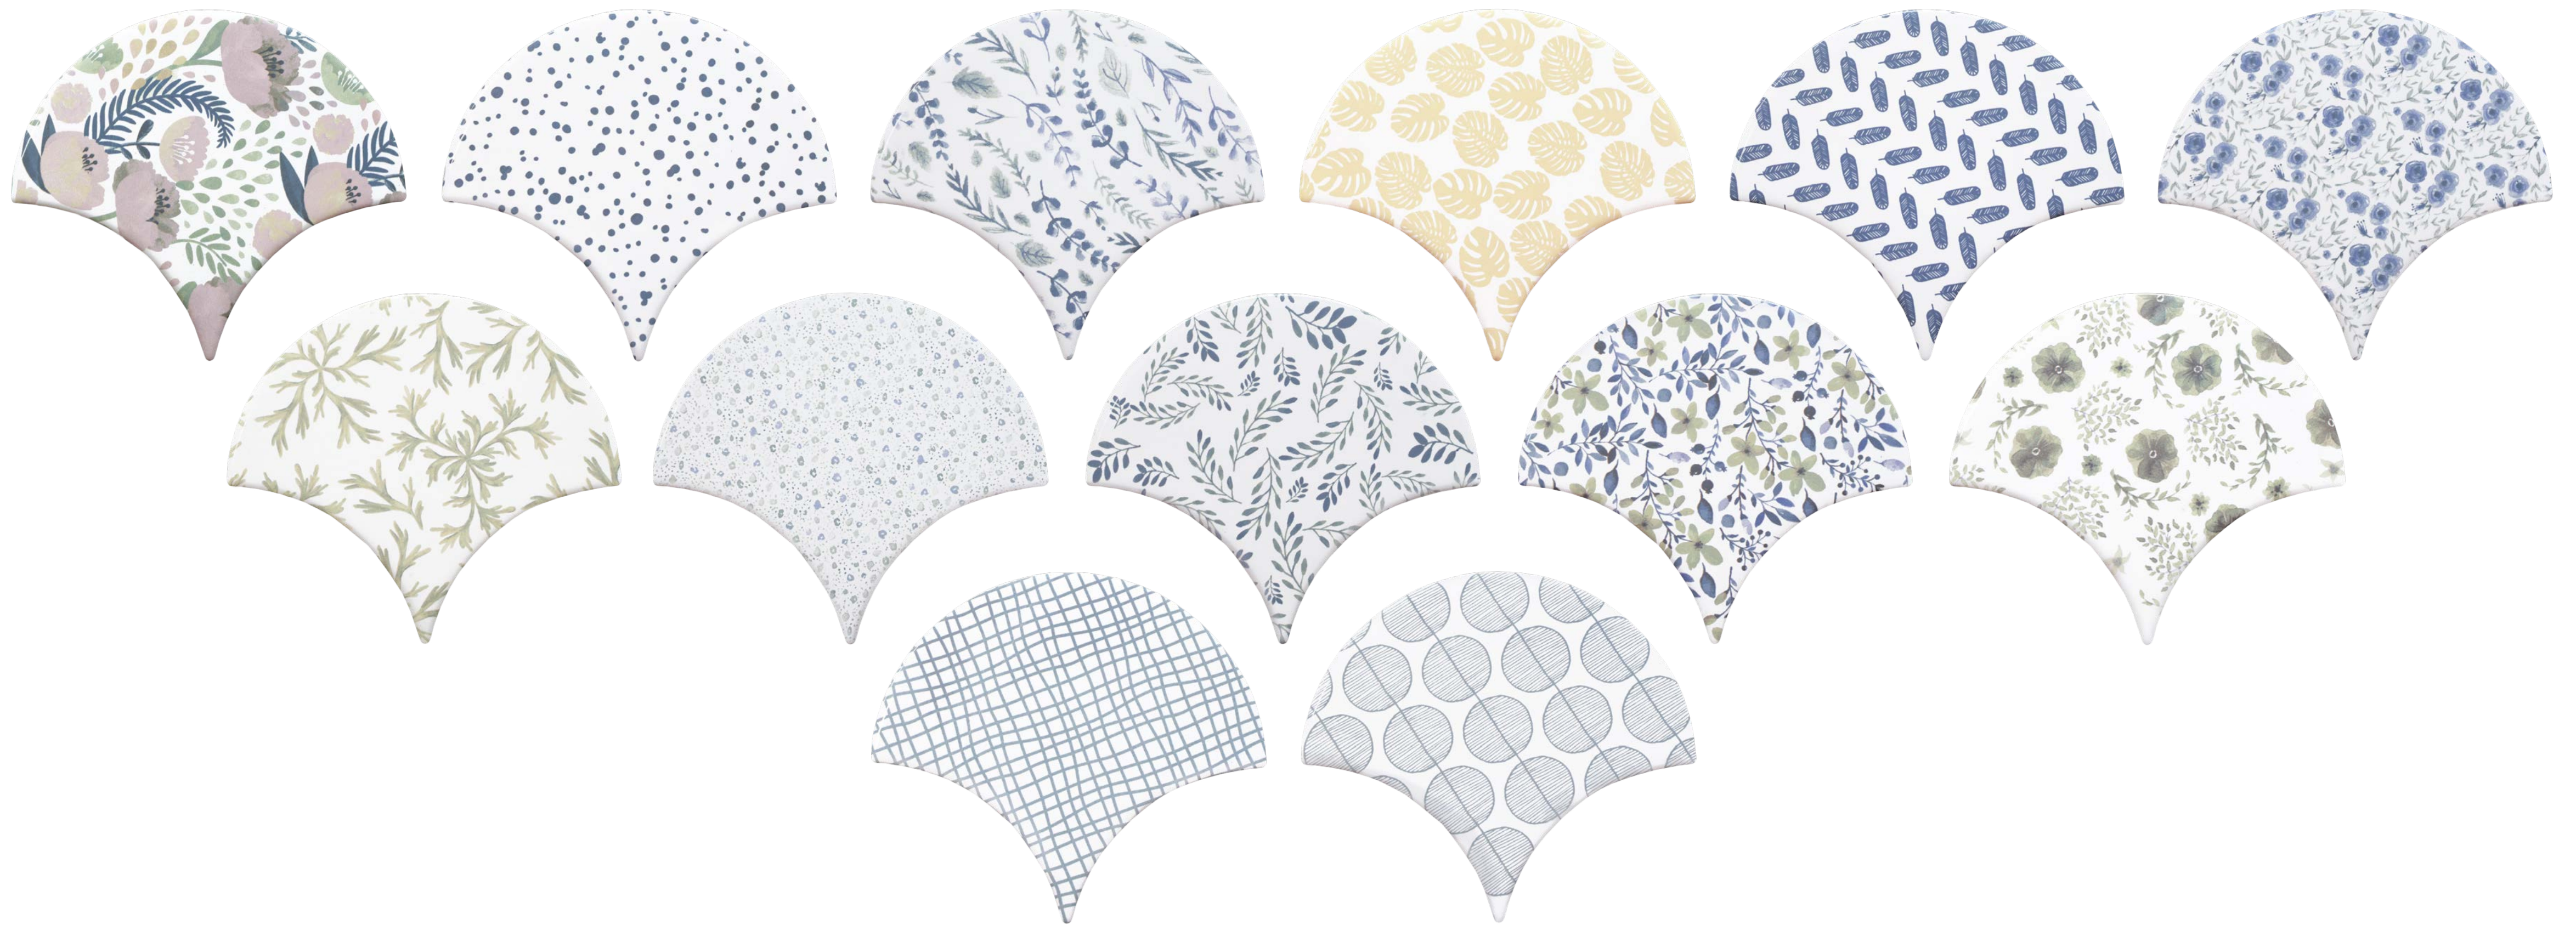

Fresh flowers and green house plants add relaxing and romantic spring decorating colors to interior design ideas and can be a great inspiration for selecting spring home decorating colors and patterns

DECORATING WITH FLOWERS

DECORS

"I must have flowers, always and always," declared French Impressionist Claude Monet. And when it comes to our homes, we couldn't agree more

COLOURS

Jazz Blanco

Jazz Pearl

Jazz Pale

Jazz Sharkskin

Jazz Aqua

Jazz Graphite

Jazz Green

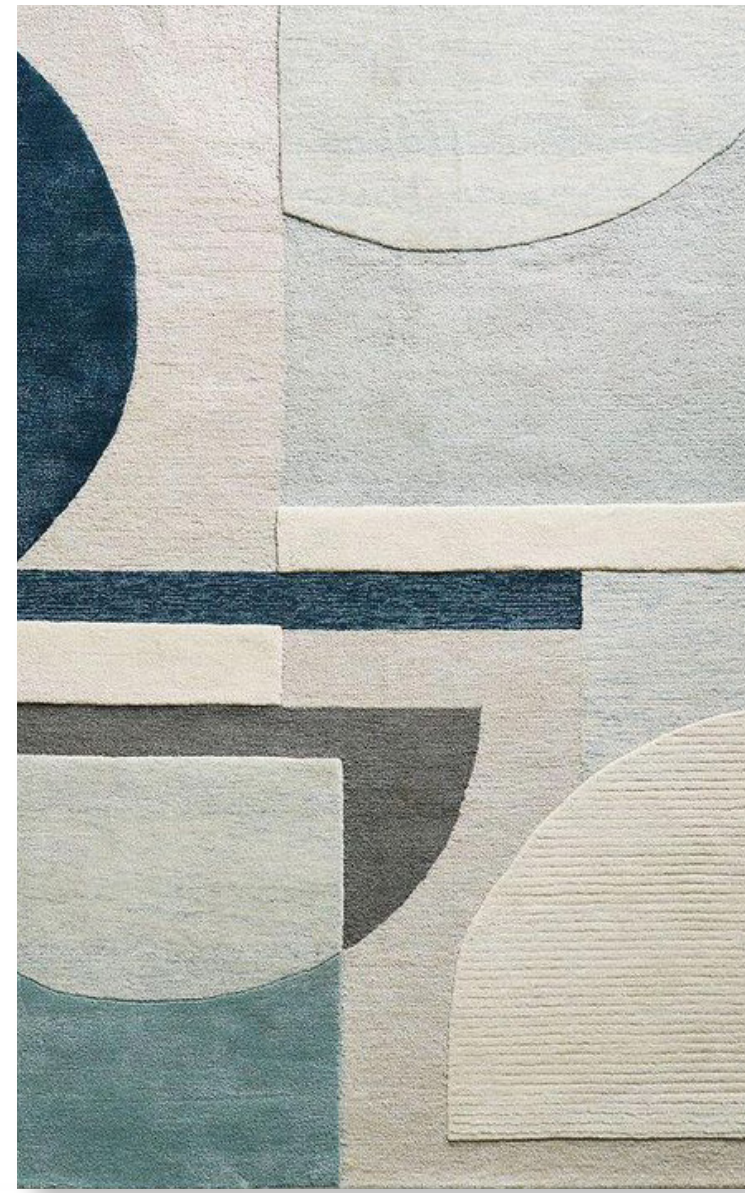

Gender-neutral but still soft and romantic

*“Jazz is not just music, it’s a way of life,
it’s a way of being, a way of thinking.”*

-Nina Simone-

Flower-based patterns never go out of style – they’ve been around for centuries and offer a reassuring connection both to the past and to our natural environment. A small-scale 1960s flower print feels whimsical and romantic, while a hyper-real, colourful floral harks back to the vibrant still lifes of the 16th and 17th centuries. There’s a floral era out there for everyone, including lovers of minimalism, who may prefer a more subtle, abstract floral motif.

DECORS

This is where the romance of the romantic floral trend comes in.

While many people find using pattern in the home a little intimidating, it's a wonderful way to personalise your space and can really lift a room from ordinary to spectacular. Pattern can be added into your interior scheme in a variety of ways from wallpaper to curtains, tiles and bedlinen. While your spaces should be all about what you love, there are a few guidelines worth considering if you are keen to add a splash or more of pattern.

We may get caught up and think that floral means feminine. And while that isn't always true, it can be a lot easier for masculine stylists to get comfortable with floral interiors when the background is a bold black. Plus, darker tones are a great way to step into the romantic element of this style. Light some floral scented candles and lean back on a dark velvety sofa and you'll feel like you've been whisked away to some setting from a romance novel.
